The **NEW** Generation of Hydro Engineering

Specifications

- 65' Hydraulic Boom
- Hydrostatic Force Feed
- Nuhn Triple Port Pit Pump
- High Chrome Cornell Pump
- 600 HP John Deere Engine

65' Double Folding Hydraulic Boom

Get out into your deep lagoons with the Nuhn triple port submersible pit pump with ease.

Hydrostatic Force Feed System

Designed to create the most efficient pumping system for reaching your desired gallons per minute.

Nuhn Triple Port Pit Pump

The fully submersible powerhouse at the end of the boom is capable of pumping even the harshest of lagoons.

High Chrome Cornell Pump

The high chrome design of the 19.5" Cornell pump protects this unit from wear and tear of sand and other materials.

Efficiency & Power

Hydro Engineering's newest pump truck is one of a kind in the manure application market. Its hydrostatic system, combined with the Nuhn pit pump makes it the most efficient pumping unit that is capable of reaching maximum performance in all conditions.
